

Do you work with child car restraints? Do you want to learn more, share ideas, celebrate what you do and be inspired? Read on.....

Calling all those with an interest in child car seat restraints - planning for Plunket's second conference on child restraints is underway. If you attended the very successful inaugural child car restraint conference hosted by Plunket in 2006 we want to see you in 2010 to celebrate your work, learn from each other and discuss and check out the latest in the field of child car restraints. If the 2010 conference will be your first child restraint conference you won't want to miss it!

Book out 22-23 April 2010 and join others to hear top international speakers, share information during great workshops and mix with other experts in the field. This two day event will be held in Auckland so make sure it is in your diary for the new year. More information coming your way soon.

If you know someone else that may wish to attend please pass this email to them and get them to contact Sue Campbell at sue.campbell@plunket.org.nz to ensure they get all future information about the event. Also, if there are topics you would be keen to learn about at the conference do get in touch.
